Dear Sir/Madam,

am writing to express my strong interest in the Software Engineer (Entry Level) position at Ascenda Loyalty. I came across the job listing on Job Hunt Hour, and I believe that my skills and passion for software engineering make me an excellent fit for this role.

Currently, I have completed pursuing a Bachelor of Engineering in Software Engineering at the Singapore Institute Of Technology (SIT). Throughout my education and my previous internship experience, I am well-versed in conducting design reviews, code reviews, and unit testing, and I understand the importance of usability testing in delivering exceptional user experiences. These practices ensure software applications' quality, reliability, and usability, and I am eager to contribute my skills in these areas to Ascenda Loyalty.

As stated in the job description, proficiency in major object-oriented programming languages is required. I have extensive experience in software development and possess strong mathematical and computer skills. I am fluent in Java, C++, C#, and Kotlin, and I have hands-on experience in building MVC applications with ASP.NET (C#). I am currently working as a .NET developer in GetGo, where I effectively applied object-oriented programming concepts and design patterns to develop software systems.

In addition to technical skills, I possess strong communication and interpersonal abilities, as emphasized in the job description. My experience as a Junior Developer at GetGo has allowed me to develop a wide range of interpersonal and communication skills. For instance, I successfully engaged with various stakeholders and product managers to gather and clarify the requirement for a Fleet Management System, leading to a notable 50% increase in the number of completed maintenance jobs.

Joining Asenda Loyalty as a Software Engineer (Entry level) is an opportunity I wholeheartedly embrace, and I am eager to contribute my skills and dedication to the success of the company. I have attached my resume, which provides further details on my skills, education, and experiences. Should you have any questions or require additional information, please feel free to reach me at 8186 1415. I look forward to the opportunity to discuss my qualifications in more detail. Thank

you for considering my application.

Sincerely,

May Madi Aung
